**Dear Present and Future SCL Members,**

When reviewing the SCL offerings for the Spring 2022 Semester, we hope that you will be as enthusiastic as we are. The sessions are described in more detail in this brochure. Our courses are lecture-based and taught by local experts. With the exception of the field trips, all of the classes will be held at the O'Connor Center, 611 Winona Street. Classes meet at 1:00 p.m. and 2:30 p.m. on Tuesdays and Thursdays during the semester unless otherwise noted in the schedule.

SCL is a volunteer organization supported by membership dues, The University of Tennessee Department of Professional and Personal Development, and the John T. O'Connor Senior Center. All members must be 50 years of age or older. Officers and the Curriculum Committee are all SCL members who volunteer their time and effort to bring you these programs. The cost of membership is \$40.00 per person or \$55.00 per couple (per semester). These fees are used to offset the costs of brochure printing, postage, registration, speaker honorariums, supplies, field trip subsidies, etc. **Registration is through the Department of Professional and Personal Development, via telephone using a credit card at (865) 974-0150.**

Through Chris' talk and amazing photographs you'll learn so much about bear behavior. Seeing a bear in Cades Cove is just not the same as experiencing them in the wild.

Chris Norcott is an expert on black bears and he has spent more than a decade hiking the backcountry of the Great Smoky Mountains photographing bears' wild and secretive lives. He is a renowned wildlife photographer who lives just outside the Great Smoky Mountains National Park. **Speaker:** Ray Smith

This is the first of two presentations this session by Ray Smith of Oak Ridge on the Manhattan Project which developed the atomic bomb during World War II. (The second is a field trip on April 12 to see many of the Manhattan Project sites in Oak Ridge.) Have you ever wondered why the then unknown community of Oak Ridge, Tennessee, was chosen as one of the three sites of the project, what the workers at the Oak Ridge facilities were told about the purpose of their work, how the work at Oak Ridge fit into the overall scheme of the Manhattan Project, etc? Come join us and find out the answers to these questions and many others as well as getting an update on the new Manhattan Project National Park being developed in Oak Ridge and at the two other Project sites.

Ray Smith is the Historian for the City of Oak Ridge and is a Commissioner on the Tennessee Historical Commission. He is also a board member of the Atomic Heritage Foundation and is the retired historian for the Y-12 National Security Complex.

**Title:** To Be a Hero; How Your Ordinary Life is Extraordinary

**Speaker:** Chris Edmonds

A couple of years ago many of us read the brief newspaper accounts of the heroism of U.S. Army Master Sergeant Roddie Edmonds of Knoxville. Sergeant Edmonds saved numerous lives of Jewish prisoners of war when he courageously refused to divulge the names of the Jews in a POW camp to the camp's commanding German officer in the closing days of World War II. Our speaker is Sgt. Edmonds' son who has written a best-selling book on the subject. Mr. Edmonds will give us the full story which spans seven decades and links a sprawling list of heroes from every corner of the country.

Chris Edmonds is a native of Knoxville and holds degrees from the University of Tennessee and Liberty Theological Seminary. He is the senior pastor of Piney Grove Baptist Church and is the author of the book *No Surrender: A Father, A Son, and An Extraordinary Act of Heroism That Continues to Live On Today*. Obviously, such changes in the area being developed will have a large impact on Knoxville, and especially on the Old City. Join us and find out what's going to be changing and what the anticipated impacts will be.

Tim Hill is a member of the seven member City of Knoxville Sports Authority Board which is in charge of the \$65,000,000 development budget for the stadium and its Old City surroundings. Chief Eve Thomas has been with the Knoxville Police Department in a number of varied capacities for almost 30 years and has served as its first female Chief since June of 2018. **Title:** The Most Un-Civilized War: Knoxville and East Tennessee in the Civil War

**Speaker:** Mark Blevins

During the American Civil War Knoxville found itself in the unenviable position of having its citizens sharply divided in their loyalties between the Federal government and the Confederacy. In fact, having such events as competing recruiting rallies going on at the same time on Gay Street was not unusual. Such an environment lent itself to the city and region being torn apart from within by the differing factions. In this talk we'll learn what factors brought about such differing loyalties in the area, how these differing loyalties tragically played out and how things stood at the end of the four years of war.

Mark Blevins' study of history began at age five sitting in his grandmother's lap listening to stories of the Civil War she had heard from her grandfather who had fought in the war. He received his formal education at East Tennessee State University, the University of North Carolina, Concord University and Bluefield University. He has taught at the elementary through university levels. He has also been active in numerous Civil War Roundtables, has traveled to and researched every major and most secondary Civil War battlefields and was previously honored by being named East Tennessee History Teacher of the Year.
